

CSHP Manitoba Research Fund

Application Form

The Research Fund supports CSHP Manitoba members who are conducting research that improves patient care and patient health outcomes and further advances hospital/health-system pharmacy. This fund is intended to encourage CSHP Manitoba members to present and publish their research.

Eligible projects will include original research (for example a survey or retrospective chart review, quality assurance or improvement project), brief research review, review article, systematic review or meta-analysis, point counterpoint article, case report or innovation in pharmacy practice.

See fund description for complete research project and applicant eligibility criteria, and submission requirements.

Applicant Name: _____

Applicant CSHP member number: _____

Name of research project: _____

Type of project (ex. case report): _____

Health research ethics approval obtained (if required): Yes or No

Please provide specific details of expenses for which you are requesting funding. If expenses were paid in US funds, please also provide the amount paid in Canadian funds.

Expenses requested:	US funds	CAD funds
Total expenses requested:		
Minus funding already obtained*		
Minus funding requested but not yet obtained*		
Total funding requested:		

*Other funding obtained and/or applied for:

- Funding already obtained (indicate how much & from who): _____
- Funding requested, not yet obtained (indicate how much & from who): _____

Please include with your application:

- Applicant(s) must submit a brief report (maximum 1000 words) summarizing how the research project will improve patient care and patient health outcomes, and/or help to further advance hospital/health-system pharmacy in Manitoba.
 - Please include the following information in your report:
 - Purpose of the research or publication including relevant background information, rationale for the research proposal or publication, and research hypothesis and objectives if applicable
 - Methodology including experimental design, study population, methods for data collection and analysis.
 - This report will be used to assess eligibility of the applicant for funding.
 - This report may be used by CSHP Manitoba Branch to promote the fund or acknowledge fund recipients (ex. CSHP Manitoba social media recognition, promotion in Pharmashare or other CSHP Manitoba Branch communications, etc.)
